The meanings of these symbols are described below. It requires just a little space for installation and gets a large image from short distance. The image can be still kept as bright and clean enough for use in bright rooms. It is perfect for use in low luminance rooms where low noise is more important than brightness. It can be easily connected to many signal sources like PC, DVD and so on. The rich connectivity provides you more options to make your presentation impressive. Contact immediately your dealer if anything is missing. For moving the projector, be sure to use the original packing materials. Use special caution for the lens part. When this switch is not pushed in, RGB IN2 is selected. In such a case, please push the Restart switch by using a cocktail stick or similar, and before turning on again, make the projector cool down at least 10 minutes without operating. Only push the Restart switch in these exceptional instances. Put nothing on the projector. This projector To prevent damaging the projector and injuring yourself, always hold the projector whenever using the elevator buttons to adjust the elevator feet. Also do not incline it backward or forward exceeding 9 degrees. Exceeding these range could cause malfunction, and could shorten the lifetime of the consumables. The adjustment range of the elevator feet is 0 to 9 degrees. Dropping or knocking over the projector may cause damage or injury. It is intended to be used as an extra theft prevention measure. Some cables have to be used with core set. A too long cable may cause a certain picture degradation. Please consult with your dealer for details. For cables that have a core only at one end, connect the core to the projector. For details on how this is done, please refer to the instruction manual of the corresponding laptop computer. Use of some of these modes will not be possible with

this projector. Then the resolution will go back to the original. <http://datatech-int.com/userfiles/comcast-motorola-dvr-dct3412-manual.xml>

It might be recommended to use other CRT or LCD monitors to change the resolution. Plug and Play can be achieved by connecting this projector to a computer is VESA DDC display data channel compatible. Plug and Play may not work properly if any other type of connection is attempted. To change the settings, refer to the AUDIO item in the SETUP menu. 34 To change the settings, refer to the AUDIO item in the SETUP menu. 34 If it is damaged, contact your dealer to newly get correct one. Never attempt to defeat the ground connection of the threepronged plug. Do not mix a new battery with used one. If the liquid adheres to your body or clothes, rinse well with water immediately. It may result in malfunction. Adjust the direction of the projector to keep the light from directly hitting the projector's remote sensor. Also do not peep at the inside of projector through a hole. Please power on the projector prior to the connected devices. Power off the projector later than the connected devices. Then wait several seconds because the buttons may not function for these several seconds. When the power is However, please pay special attention to below two points when you do Neglect could shorten the lifetime of the lamp. Attach the lens cover. Do not look into the lens of projector. Also do not peep at the inside of projector through a hole. Operating Selecting an aspect ratio 1. Press the ASPECT button on the remote control. The "FREEZE" indication will appear on the screen, and the projector will enter the FREEZE mode. See the ASPECT item in the IMAGE menu 30 . KEYSTONE Using the buttons corrects the keystone distortion. The startup screen is a screen displayed when no signal or an unsuitable signal is detected. TURN ON TURN OFF This function works with INPUT, RGB, and VIDEO buttons. The signal cables are not correctly connected.

The 3M TM Multimedia Projectors are designed, built, and tested for use indoors, using 3M lamps, 3M ceiling mount hardware, and nominal local voltages. How can I get it How can I get it Generally the only way to get a service manual is to contact the manufacturer and pay for it. Is there a download for it somewhere. To my knowledge this manual is available on paper only. What I have a SANYO PLVZ700 projector that does not power on even though the power indicator turns solid green from solid red.
